The University at Buffalo, Department of [Exercise and Nutrition Sciences](#) is now accepting applications for a full-time position of Clinical Instructor/Clinical Coordinator. We encourage applications from candidates who are historically underrepresented in academia. This is a 12-month, non-tenure track position and is designated at the faculty rank of Clinical Instructor to begin in Summer 2024.

The incumbent is responsible for oversight of the clinical education portion of the MS Clinical Nutrition Program including:

Teaching and On-site Placement:

- Instruct students in hands-on dietitian skills for a variety of conditions and medical nutrition therapy.
- Place students in clinical, community, and research rotations, ensuring a diverse and enriching learning experience.
- Manage the student experience onsite, including competency evaluation and professional development.

Administration and Coordination:

- Maintain and manage affiliation agreements with sites.
- Evaluate students' progress and performance, adhering to competency evaluation standards.
- Review and enhance curriculum to meet evolving industry standards and educational goals.

Preceptor and Site Management:

- Foster relationships with over 100 preceptors and sites.
- Provide preceptor and site evaluations and professional development opportunities.
- Contact and meet with potential preceptors for recruitment on a regular basis to ensure the sustainability and growth of the program.
- Ensure compliance with ACEND accreditation process and standards.

Communication and Collaboration:

- Collaborate with Program Director and department faculty to enhance the overall educational experience.

- Communicate effectively with stakeholders, including students, preceptors, and faculty.
- Work towards continuous improvement of the program through curriculum review and enhancement.
- Remain competent and current through self-directed professional reading, developing professional contacts with colleagues, attending professional development courses, attending appropriate regional, statewide, and national meetings, participating on committees as required, and attending training and/or courses as directed.

Core teaching content areas:

- Application of the nutrition care process (NCP) and assessment, diagnosis, intervention, monitoring, and evaluation criteria (ADIME) in electronic medical records.
- Developing knowledge, skills, and behaviors for delivering nutritional care across various conditions and settings.
- Student interaction with trained, live standardized patients.

A range of valuable perks:

Joining the UB Exercise and Nutrition Science Department as the Clinical Director of the Clinical Nutrition MS presents a host of advantages. As a member of our team, you will have the opportunity to attend FNCE every other year, fostering continuous professional development. Our commitment to your growth is further reflected in our provision of professional development funds and a tuition reimbursement program.

You'll be part of a collegial and supportive department, situated in Buffalo, known for its affordable cost of living. Our program boasts longevity and is strategically poised for growth, evidenced by the construction of a new teaching kitchen to enhance student experiences.

The program is supported by active research faculty who prioritize student success. Enjoy a close and supportive relationship with our program director, whose established longevity in the department ensures stability. Our recently completed ACEND accreditation site visit yielded glowing and positive results, reinforcing our commitment to excellence. Benefit from our extensive network of supportive and long-term preceptors, many of whom are proud graduates of our program.

About the Department:

The [Department of Exercise & Nutrition Sciences](#) is one of the academic units in the School of Public Health & Health Professions. There are well-established research programs and excellent
