University of Doha for Science and Technology (UDST) is the first national applied University in the State of Qatar, offering applied bachelor's and master's degrees in addition to certificates and diplomas in various fields. UDST has over 50 programs in the fields of Engineering Technology and Industrial Trades, Business Management, Computing and Information Technology, Health Sciences, Continuing and Professional Education and more.

With more than 600 staff and over 7,000 students, UDST is the destination for top-notch applied and experiential learning. The University is recognized for its student-centered learning and state-of-the-art facilities. Our faculty are committed to delivering pedagogically-sound learning experiences with incorporation of innovative technological interventions, to further enhance students' skills and help raise talented graduates that can effectively contribute to a knowledge-based economy and make Qatar's National Vision 2030 a reality.

The College of Health Sciences invites applications for faculty positions in the Diabetes Program.

Benefits

Our eligible employees enjoy competitive compensation and benefits, in accordance to applicable UDST policies. These benefits include:

- Generous academic annual leave
- Tax free salary
- Fully furnished upmarket accommodation {inclusive of utilities: water & electricity}
- Annual flights for spouse and 3 children {up to 18 years old}
- Children's education allowance
- Relocation/Shipping allowance
- Professional development opportunities
- International health insurance
- In-house immigration services (to help you through the residency process)
- Full access to our recreational facilities
- Research and professional development support.

Responsibilities

The Department of Diabetes Care and Patient Education offers a unique Master program in Diabetes Care and Patient Education that is designed to equip healthcare professionals with evidence-based knowledge and skills to deliver high quality care to people living with diabetes in the State of Qatar.

The program utilizes the International Diabetes Federation standards in diabetes education. It is guided by Qatar National Diabetes Strategy pillars and associated objectives as well as Qatar Public Health Strategy. The courses detail various topics that include, but are not limited to: understanding and managing diabetes and its complications, diabetes care in special populations, the multidisciplinary approach, teaching and learning practices, and improved critical appraisal of research studies. The practicum component of the program is designed to enable learners to apply the theoretical concepts in a workplace environment.

The program courses reference reputable national and international practice guidelines such as the National Clinical Guidelines of the State of Qatar, Diabetes Canada (formerly known as the Canadian Diabetes Association), the American Diabetes Association, the American Association of Diabetes Educators, and the United Kingdom National Institute for Health and Care Excellence.

Education and Experience Requirements

Faculty members will be placed in the appropriate rank based on their education and experience. The broad criteria are noted below.
