Job Description	

Professional Officer (All Levels) in Occupational Therapy

Job no: 498642
Department: Professional Officers
Contract type: Contract
Apply now

The Professional Officers Division (POD) houses a centralized pool of academic staff under the Professional Officers scheme. Professional Officers come with specialised and deep technical skills

acquired through extensive industry experience. They form the talent pool which brings a much-needed industry perspective to student learning. They facilitate applied learning and applied research in SIT, complementing the academic expertise of the faculty to bring industry practices and applications into the curriculum.

Professional Officers leverage on their industry experiences to create authentic learning environments, where discovery and innovation take place. They act as coaches and mentors to students during practical learning activities such as laboratory sessions, Capstone Projects and the Integrated Work Study Programme (IWSP). Professional Officers could also lead or work with faculty on industry innovation projects to provide solutions to the industry.

In addition to their role in applied learning and applied research, Professional Officers manage the centralised laboratory facilities and resources in SIT. With Technical Officers, laboratory safety professionals, and administrators in POD, they jointly develop central policies and processes for the safe and seamless operation of laboratories in SIT.

Key Responsibilities

1. Design and teach labs & practice modules.
2. Mentor students in Capstone Projects and the Integrated Work Study Programme (IWSP).
3. Lead or co-lead innovation projects with industry.
4. Manage labs and equipment to support academic programmes and applied research.
5. Ensure safety in labs.

Job Requirements

1. A good degree in Occupational Therapy or related fields. Masters, PhD and/or relevant professional certifications would be advantageous.
2. Deep technical specialist with 10 or more years of working experience in relevant setting such as hospitals, occupational therapy clinics, community-based setting, long-term care or skilled nursing facilities.
3. Have deep, hands-on competence in the areas of psychosocial domain of health involving in occupational therapy or psychology
4. Knowledge and experience in working with people with a range of conditions, including those who have physical disabilities, mental or social problems.
5. Possess practice knowledge on administration and application of various occupational therapy assessment tools.
