Job Description

The College of Health Sciences (CHS) invites applications for a faculty position at the Associate or Full Professor level in the Division of Health Sciences, Education, and Research (HSER). The person in this position will take a leadership role in growing research capacity focused on health services research and population health research with opportunities to pursue collaborations within and outside the College. Research productivity in the College is nationally ranked by NIH in the top 20 of allied health colleges. Current HSER faculty research interests include multi-sector collaboration in population health, the impact of health inequities and the social determinants on health outcomes, and health information systems. Many opportunities for collaboration exist within centers and colleges

across campus such as the College of Public Health, Center for Health Services Research, the Center for Clinical and Translational Sciences, the Center for Health Equity Transformation, and UK HealthCare NCI-Designated Markey Cancer Center.

Ideal candidates will have demonstrated a record of ongoing extramural research funding and scientific publications. Preference will be given to candidates with expertise in health services research with a particular interest in those individuals that can build the Division's expertise in health systems, comparative effectiveness, quality of care, and health equity research. Candidates should also demonstrate a strong record of teaching, service, and mentorship. The successful applicant should have experience sufficient to qualify for an appointment at the rank of associate or full professor with tenure. This position will have a primary appointment in the Department of Clinical Sciences, HSER Division. Applicants must possess a doctoral degree. Rank, tenure status and salary are commensurate with qualifications and experience.

Programs within HSER include the Human Health Sciences (HHS) and Clinical Leadership and Management (CLM) undergraduate degrees. HHS is designed to provide the needed prerequisites for pursuit of advanced degrees in dentistry, pharmacy, physician assistant studies, physical therapy, and other health professions through identified tracks. The CLM degree and Certificate option provides training and experience specifically in the area of health services management, health law, health policy, and ethics. Opportunities to work with graduate students in the Rehabilitation Sciences PhD and other CHS programs will also be available.

Potential Team Hire with College of Public Health:

The College of Public Health currently seeks a Full Professor in the Department of Health Management and Policy to contribute to a growing faculty research capacity in health services research and health policy. A team hire between the College of Health Sciences and the College of Public Health would facilitate collaborative research and increase alignment between the academic programs in the College of Health Sciences and College of Public Health. Both hires will contribute to the University of Kentucky's increasing focus on advancing health services research across colleges and disciplines.

Candidates should apply on line with a curriculum vita and letter of interest. Those candidates interested in the team hire should address their interest in the letter. Questions should be directed to the search committee co-chair, Rachel Hogg Graham., Department of Clinical Sciences, University of Kentucky, Wethington Building Room 209F, 900 South Limestone Street, Lexington, KY 40536-0200, or email rachel.hogg@uky.edu. This is not in lieu of submitting an application for consideration.

Applications should be submitted by January 25th, 2019. Review of applications will begin immediately and continue until position is filled.
