Job Description

The Nutritional Sciences Program within the School of Public Health at the University of Washington (UW) invites applications for one full-time (100% FTE) faculty position at the rank of assistant professor without tenure (WOT) with an anticipated start date of October 2019 or later by negotiation. Faculty have an annual service period of twelve months. Salary will be determined based on qualifications and experience. The successful applicant will be appointed to the faculty in a School of Public Health department, either Epidemiology or Environmental and Occupational Health Sciences.

This new faculty position will provide sustained research, teaching, and service expertise in the areas of food systems, nutrition, and population health with an emphasis in systems modeling. The successful candidate will be expected to teach and mentor undergraduate and graduate students, develop an extramurally funded research portfolio, and conduct quality research independently and in collaboration with other School or University faculty and community members. In addition, the candidate will actively participate in service to the university and regional community, and promote a diverse and inclusive community of faculty, staff, and students.

This position will be a member of the core instructional team for the Program's recently launched Bachelor of Arts degree in Food Systems, Nutrition, and Health major. It is anticipated that the successful candidate will teach a required food systems modeling course (NUTR 402) and participate in curriculum development and instruction in research methods or other areas to support the major. At the graduate level, this position is expected to regularly mentor MS and MPH thesis projects and may participate in developing food systems curricula for graduate students.

The UW Nutritional Sciences Program is an interdisciplinary academic program in the School of Public Health composed of core, interdisciplinary, and clinical faculty who are nationally and internationally recognized experts with connections spanning a wide range of disciplines including epidemiology, environmental and occupational health sciences, health services, medicine, engineering, and urban design and planning. In addition to the major in Food Systems, Nutrition, and Health, the program offers an undergraduate Nutrition minor and partners with the school's Public Health - Global Health major to offer a nutrition option. The Program's graduate offerings include MPH, MS, and PhD degree programs and a graduate coordinated training program in dietetics. Program faculty have broad opportunities for collaboration across the School's five departments, other UW schools and colleges, and other campus and community partners.

QUALIFICATIONS

The successful applicant will have a PhD or foreign equivalent in nutrition, food systems, or a closely related field.

APPLICATION INSTRUCTIONS

To be considered for this position, please use Interfolio (<https://apply.interfolio.com/62286>) to submit the following:

- Letter of Interest
- Full Curriculum Vitae
- Teaching Statement
- Research Statement
- Diversity Statement

- Names and contact information for three references (Letters of recommendation will be requested later in the selection process)

*For the Teaching Statement: Please describe your experience, approach and philosophy in teaching and include a summary of previous teaching evaluations.

*For the Research Statement: Please describe your research philosophy, experiences, and thoughts about the direction of your future work.

*For the Diversity Statement: Please provide a one-page statement describing experiences with and commitment to diversity in research, teaching, mentoring and/or service. Please include any experience in teaching or mentoring a diverse population of students.

Applications are welcome and the position will remain open until filled.

The UW School of Public Health is committed to a diverse academic community. We view diversity, equity and inclusion as essential to our mission, and we welcome applications from faculty who have demonstrated research, training and service experience in this area. For more information, please see the following website: <http://sph.washington.edu/diversity/>.

EEO/AA Policy

University of Washington is an affirmative action and equal opportunity employer. All qualified applicants will receive consideration for employment without regard to race, color, creed, religion, national origin, sex, sexual orientation, marital status, pregnancy, genetic information, gender identity or expression, age, disability, or protected veteran status.

COMMITMENT TO DIVERSITY

The University of Washington is committed to building diversity among its faculty, librarian, staff, and student communities, and articulates that commitment in the UW Diversity Blueprint (<http://www.washington.edu/diversity/diversity-blueprint/>). Additionally, the University's Faculty Code recognizes faculty efforts in research, teaching and/or service that address diversity and equal opportunity as important contributions to a faculty member's academic profile and responsibilities (<https://www.washington.edu/admin/rules/policies/FCG/FCCH24.html#2432>).
