Job Title	Postdoctoral fellow
Department	Departments of Biological Chemistry and Dermatology https://www.biochem.uci.edu/index.asp ; https://skincenter.uci.edu/
Institution	University of California, Irvine Irvine, California
Date Posted	Jul. 5, 2022
Application Deadline	Open until filled
Position Start Date	Available Immediately
Job Categories	Post-Doc
Academic Field(s)	Biomedical Sciences
Apply By Email	xdai@uci.edu

Job Description

Postdoctoral applications are being sought from recent Ph.D. graduates. Positions are immediately available in the laboratory of Dr. Xing Dai in the Departments of Biological Chemistry and Dermatology at University of California, Irvine for research related to the molecular control of skin repair/regeneration, inflammation, and cell-cell communications. Strong training in molecular biology and cell culture is required. Experience with cell biology, lentiviral gene delivery, and/or animal models is preferred but not required. Salary commensurate with qualifications and experience. The applicants will be working on federally funded research projects that are built on our recent discoveries regarding epithelial plasticity, stem cell regulation, wound healing, and epithelial-immune cross-talks (e.g., Lee et al. Dev Cell. 2014. 29(1):47-58; Haensel et al. Cell Reports. 2020. 30(11):3932-3947.e6.; Han et al. Cell Reports 2022. 38(2):110240.; Dragan et al. JID 2022. 142(3 Pt A):583-593.e5.) Additional information about the research program can be found by contacting Dr. Dai at xdai@uci.edu or at: <https://faculty.sites.uci.edu/xdai/>
