Job Description	

The Jacobs School of Medicine and Biomedical Sciences at the State University of New York at Buffalo invites applications for two faculty positions in the [Department of Microbiology & Immunology](#) at the **Assistant or Associate Professor** level. This search targets investigators working on any molecular, cellular, and/or immunological aspect of microbial pathogenesis.

Department of Microbiology and Immunology

The department is strongly research-oriented, with major programs in bacteriology, immunology, mycology, parasitology, and virology. The department has an active research faculty containing 11 primary faculty members and a number of adjunct faculty as part of the graduate research faculty. Most

departmental faculty members are also members of The Witebsky Center for Microbial Pathogenesis and Immunology, an interdisciplinary center within the Jacobs School of Medicine and Biomedical Sciences. The department is fully equipped with all technology required to support a cutting-edge research program. For more details on faculty and research programs, please visit:

<https://medicine.buffalo.edu/departments/micro/research/witebsky.html>

All individuals hired will be expected to establish and/or maintain an on-site extramurally-funded and productive research program, to contribute to undergraduate, graduate, and professional teaching, and to assume various administrative responsibilities of the department.

Facilities and Research Partners

The Department of Microbiology & Immunology is housed in a new state-of-the-art facility on the downtown Buffalo Niagara Medical Campus. Nearby are the Roswell Park Cancer Institute (RPCI) and the Hauptmann-Woodward Medical Research Institute (HWI), which have international reputations in cancer research and structural biology, respectively. The University at Buffalo (UB) has Schools of Medicine, Dental Medicine, Public Health, and Pharmacy, whose faculty collaborate extensively within the University, as well as with faculty at RPCI and HWI. Other institutional resources located on the downtown campus are the New York State Center of Excellence in Bioinformatics and Life Sciences and the Clinical and Translational Research Center.

Outstanding Benefits Package

Working at UB comes with benefits that exceed salary alone. There are personal rewards including comprehensive health and retirement plan options. We also focus on creating and sustaining a healthy mix of work, personal and academic pursuit - all in an effort to support your work-life effectiveness. Visit our benefits website to learn about our [benefit packages](#).

About The University at Buffalo

The University at Buffalo (UB) #ubuffalo is one of America's leading public research universities and a flagship of the State University of New York system, recognized for our excellence and our impact.
