**Job Description**

This position will be focused on research and education related to Artificial Intelligence and Data Science in [Biomedical Informatics](#). As a tenure track position within the department of Biomedical Informatics (BMI), faculty are responsible for obtaining extramurally funded research programs, teaching in our Undergraduate, Masters' and PhD programs and mentoring post-doctoral fellows.

This position also includes management of our programming staff as well as teaching our Jupyter notebook skills building workshop each summer, involving a diverse group of contributors from the University at Buffalo and around the nation. This individual will work directly with Dr. Peter Elkin on the Biomedical Informatics program.
