- assessment of students.
- 2. Mentor and supervise students in practical learning activities, clinical placements and thesis/capstone Projects.
- 3. Collaborate with industry partners and coordinate clinical placements for Clinical Practice Education (CPE).
- 4. Manage laboratories and equipment to support academic programmes and applied research.
- 5. Ensure safety in laboratories through proper operational processes and maintenance of equipment and promoting safety culture across laboratories within the Health and Social Sciences cluster.
- 6. Coordinate procurement of equipment and liaison with vendors/suppliers.
- 7. Lead or co-lead innovation projects with industry to enhance clinical care innovation and productivity.

Job Requirements

- 1. SNB-valid Full Practicing Certificate (Registered Nurse).
- 2. A Master's degree in Nursing from a recognised University. Possessing a PhD degree and relevant certifications will be an added advantage.
- 3. Have at least 10 years of clinical nursing experience in healthcare settings.
- 4. Extensive experience and knowledge of nursing skills and industry practices to bring industry perspectives to SIT.
- 5. Keen interest in innovation projects, with demonstrated ability in developing solutions to technical problems. Experience in research projects and publications will be an added advantage.
- 6. Strong supervisory skills and enjoy working closely with students in an educational environment. Experience in simulation education will be an added advantage.
- 7. Demonstrate proficiency to keep abreast of development in the field and pursue professional certification programs. Possessing industrial certifications in relevant areas will be an added advantage (e.g., simulation training)
- 8. Possession of a good network of relationships with industry partners in hospitals, community, and ILTC sectors will be an added advantage.
