Posted Jul. 22, 2024, set to expire Aug. 9, 2024

Anticipated start: Position is expected to begin in August or September 2024.

Review timeline: Review of applications begins immediately and will continue as needed through August 2024.

Position duration: Appointment length is based upon project milestones, course design(s), and deliverables. Appointments may be renewable based on need, funding, and performance.

Application Window

Open date: June 10, 2024

Next review date: Monday, Jul 22, 2024 at 11:59pm (Pacific Time)

Apply by this date to ensure full consideration by the committee.

Final date: Friday, Aug 9, 2024 at 11:59pm (Pacific Time)

Applications will continue to be accepted until this date, but those received after the review date will only be considered if the position has not yet been filled.

Position description

Job Type

Academic - Non-Tenure Track

Job Summary

UC Berkeley Extension, the professional and continuing education division at the University of California, Berkeley, seeks a dynamic part-time online course developer with a commitment to undergraduate, professional, and continuing education in Epidemiology to serve as a subject matter expert in developing one or more online courses.

General Duties

We are seeking an online course developer who possesses current subject matter expertise and/or teaching knowledge in the following course subject(s):

- Epidemiology

For each online course, the general duties include but are not limited to:

- Develop a new asynchronous online course.

- Collaborate with the academic department and Instructional Design Team on course design, roadmap and framework and determine the number of course modules for each course.
- Collaborate with Academic Department, Instructional Designer and Media Team to create a media plan for the course.
- Collaborate with the Instructional Design Team on design of learning activities and learning strategies.

For each course module, develop and provide original raw content for the following common elements:

- Learning Objectives;
- Online course topic outline and syllabus;
- Lecture segments, including but not limited to video, PowerPoint slides, and audio recordings using University-provided software;
- Narrative textual content;
- Reading assignments;
- Learning Activities, including but not limited to discussion prompts, quizzes, assignments with instructions; and
- Assessments, including course midterm or project and two final exam versions with answer keys or a final project.

Produce course media with direction and collaboration from the academic department and Instructional Design Team:

- Write scripts for all media two weeks prior to recording
- Recordings
- Provide imagery examples or descriptions for each script to produce media

Meet weekly or biweekly (twice a month) with the Instructional Designer over zoom.

Review completed course content within LMS and provide content quality assurance including media content.

(required at time of application)

- Doctorate degree or equivalent international degree.

Additional qualifications (required at time of start)

- All work must be performed in the United States, whether in person or online. For those who are not US citizens or permanent residents, a legal permit that allows work in the United States (such as a US visa that allows employment) is required by the start date of the position. Due to the part-time, temporary nature of instructor positions, UC Berkeley Extension is unable to provide visa/work permits.

Preferred qualifications

- Doctorate degree or equivalent international degree in epidemiology.
- 3 or more years of professional and/or academic experience in epidemiology.
- 3 or more years of professional or undergraduate-level teaching experience (as the primary instructor) in epidemiology.
- Experience teaching at a U.S. college/university institution.
- Experience teaching and/or developing academic content for online courses.
- Experience in creating original academic content such as syllabi, learning objectives, lectures/presentations/scripts, learning activities, assignments, assessments, exams, and quizzes.
- Ability to convey conceptual and complex ideas and information.
- Ability to collaborate with colleagues and work within a team environment.
- Ability to commit time to approximately 10-15 hours a week over 6-9 months (specific delivery schedule determined by mutual agreement).
- Ability to participate in regular phone/video conferences M-F between 9am-5pm (USA Pacific Time).
- Proficiency in (or willingness to learn) instructional and other technology, such as: Learning Management Systems (Canvas); lecture/presentation capture applications (Panopto); online video conferencing (Zoom); Microsoft Office (Word and PowerPoint); file sharing (Google drive or Dropbox); and Google Workspace tools (email, calendar, docs, sheets, slides, etc).
- Effective verbal/written communication and presentation skills (English).
- Effective organizational skills with attention to detail.
