Job Description

Job Purpose

The Department of Environmental Health Sciences at the University of Sharjah, United Arab Emirates, invites applications for full-time faculty positions at the level of Assistant/Associate Professor commencing Spring 2024-2025.

The candidate should have a Ph.D. in one of the disciplines of Environmental Health Sciences/Science with an outstanding record of academic and research performance.?

Main accountabilities & expectations

- Teach a range of core courses related to environmental health sciences in general including environmental impact assessment, vector control, advanced research methodology, and environmental health risk assessment for undergraduate and graduate students.
- Coordinate field training courses for senior undergraduate students.
- Supervise senior and graduate students in their graduation projects and dissertations.
- Actively engage in research and community service.
- Evaluate students' learning using various methods of assessments.
- Advise students on academic matters.
- Actively participate in departmental assignments and student activities as assigned by the department chair or college dean.
- Serve on department, faculty and university committees as appointed or elected.

Required Skills

- Fluency in English at the general and professional levels is essential.
- Excellent oral and written communication skills.
- Very good computer skills (Microsoft Office applications, learning management systems)?.
- Excellent professional writing skills (research proposal, scientific monographs, scientific reports, etc.) and presentation skills.
- Strong interpersonal skills that can produce effective professor-student interactions.
- Behavioral competencies in terms of adaptability, decisiveness, initiatives, perseverance, organizational skills, stress management and valuing profession and diversity.?
