promoting wellness and behavior change, and the scientific basis and methodologies for analyzing health concerns for both individuals and populations. Upon degree completion, graduates are prepared for immediate employment in multiple allied health areas or a pathway to graduate studies in a variety of disciplines, including medicine, optometry, pharmacy, nursing, public health, and other professional preparation programs. The successful candidate will join a strong and engaged faculty committed to inclusive excellence at one of the nation's outstanding public universities. Because we educate future healthcare professionals, we recognize our ethical responsibility to educate students and to advocate for equity, dignity, caring and fair treatment for all.

Health Sciences faculty are committed to excellence in teaching, scholarship, and service. Our college actively engages in practices that promote an inclusive learning environment and foster a sense of belonging and student success, where colleagues can thrive in teaching, research, and service. We invite applications for multiple Tenure-Track positions at the Assistant Professor rank to join our team. These positions have a start date of August 2025.

### **RANK**

Assistant Professor, Tenure-Track Appointment, 10-Month

### **RESPONSIBILITIES**

The successful candidate will:

- Teach undergraduate courses in our Health Sciences curriculum (<https://www.healthsci.jmu.edu/>).
- Demonstrate a commitment to excellence in teaching, scholarship, and service
- Participate in service at the departmental, college, and university levels

### **MINIMUM QUALIFICATIONS**

- Earned doctoral degree in health sciences, health education and promotion, public health, or a related field. (ABD applicants will be considered with evidence of continued progress and completion of degree by August 1, 2025).
- Identified scholarly research agenda and plan for scholarly activity
- Demonstrated potential and/or experience in teaching courses in areas contributing to our engaging curriculum, including but not limited to social health determinants, medical terminology, statistical methods, chronic or infectious human diseases, and health research methods.
