Florida International University is Miami's public research university, focused on student success. According to U.S. News and World Report, FIU has 42 top 50 rankings in the nation among public universities. FIU is a top research university (R!), with more than \$281 million in annual research expenditures. FIU ranks 15th in the nation among public universities for patent production, which drives innovation, and is one of the institutions that help make Florida the top state for higher education. The **Next Horizon** fundraising campaign is furthering FIU's commitment to providing students with Worlds Ahead opportunities. Today, FIU has two campuses and multiple centers and supports artistic and cultural engagement through its three museums: **Patricia & Phillip Frost Art Museum**, the **Wolfsonia-FIU**, and the **Jewish Museum of Florida-FIU**. FIU is a member of **Conference USA**, with more than 4—student athletes participating in 18 sports. The university has awarded more than 330,000 degrees to many leaders in South Florida and beyond. For more information about FIU, visit www.fiu.edu.

Assistant/Associate/Full Professor Tenured or Tenure-Earning

The **Robert Stempel College of Public Health & Social Work** at Florida International University is ranked by U.S. News & World Report No.1 in South Florida amongst public and private schools of public health and 35th amongst all public universities nationwide. The college also ranks 12th in NIH funding in public universities by the Blue Ridge Institute for Medical Research. Stempel College is located in Miami, a vibrant and multi-cultural city near beautiful Miami Beach and the world-famous Florida Keys. Miami is the gateway to Latin America and the world.

Stempel College seeks energetic and visionary faculty in neurotoxicology/neuroscience with a focus in understanding the impact of the environmental pollutants on brain health. Ideally, the selected candidate will have current funding and a track record of research and educational activities in Environmental Health Sciences. We are now accepting applications for a tenured or tenure-earning Assistant/Associate/Full Professor in the Department of Environmental Health Sciences (EHS) within the College of Public Health.

The Department of EHS research addresses health effects related to environmental toxicant exposures through research, education, and service to promote healthier lives. The department includes extramurally funded faculty with research expertise in cancer, stem cell biology, neuroinflammation, mitochondrial dysfunction, gene-environment interactions, and neurodegenerative diseases. The EHS department houses one of FIU designated Emerging Preeminent Programs: Brain, Behavior, & the Environment. (BBE) Please visit <https://www.youtube.com/watch?v=3fy54CWYWEk> to learn more about the BBE program. We seek candidates with broad experience with particular emphasis on basic and translational neurotoxicology and neuroscience, neuroinflammation, the expose environmental carcinogenesis, and the role of environmental chemicals on neurodegenerative disorders such as Alzheimer's and Parkinson's disease. The department was recently awarded a new Training Grant from the National Institute of Environmental Health Sciences (NIEHS) entitled Training in Environmental Neuroscience that is housed at Stempel College in collaboration with other units of the university including Psychology and Biomedical Engineering. This new training program for doctoral students and postdoctoral fellows started on July 1, 2023

Expectations and Responsibilities:

The hired faculty is expected to provide leadership support and advance the Department research, academic, and service programs. The candidate is also expected to engage in extramurally funded research, teach and advise graduate students, and serve on dissertation committees. The successful applicant will have a record of scholarship and based on academic rank, be a recognized leader in their field of research and whose profile and research proposal demonstrates an excellent fit with institutional strategic goals and the aims of the position.

Required Qualifications:

Qualified candidates are required to have an earned doctoral degree in Environmental Health Sciences or Neurotoxicology/Neuroscience. As appropriate for rank, competitive applicants should have a strong, extramural, and collaborative funded research program in place as Principal Investigator. A track record of peer reviewed publications, and effective teaching in the relevant discipline is also required.

Salary:The candidate will be offered a highly competitive salary, start up and benefits package.

Qualified candidates are encouraged to apply to **Job Opening ID 533195 to be determined by HR** at [facultycareers.fiu.edu](https://www.fiu.edu/facultycareers). Candidates need to provide a cover letter highlighting their professional experience and vision of their work, as well as their curriculum vitae in a single pdf binder file. Candidates will also need to provide the names and contact information for at least three (3) references who will only be contacted as determined by the search committee. Applications review will continue until the position is filled. For inquiries, please contact the Chair of the Search & Screen Committee, Dr. Quentin Felty, email: feltyq@fiu.edu
