The University at Buffalo [School of Dental Medicine](#) is seeking a tenure-track/tenured faculty member with expertise in bioinformatics to be appointed at the level of **Assistant or Associate Professor**. Candidates must be highly motivated and accomplished, with a doctorate degree in bioinformatics or a related field and strong expertise in oral health research and/or cancer biology, as well as strong statistical, machine-learning, data science, and computational biology background. The ideal candidate would demonstrate a record of impactful publications and a history of, or strong potential for, peer-reviewed research funding. The candidate will be expected to build a program of independent and collaborative research that contributes to the institution's mission. The research program may be purely computational or may include a small wet-laboratory component, subject to availability of space and resources.

Innovative investigators with strong experience including, but not limited to, the following areas are welcome to apply:

- Single-cell and bulk transcriptomics analysis
- Image analysis
- Artificial intelligence
- Computational immunology or immuno-oncology
- Data mining of electronic health records
- "Multi-omic" studies (including metabolomics)
- Microbiomics

The position offers the opportunity for scientific and professional growth with an exciting group of scientists that build on core strengths areas of oral health research including oral microbiology/immunology, mineralized tissues, salivary gland biology, and oral cancer/cancer complications. A portion of the Faculty's time is expected to be devoted to develop collaborations and provide analytical services to other investigators at the School of Dental Medicine.

Outstanding Benefits Package

Working at UB comes with benefits that exceed salary alone. There are personal rewards including comprehensive health and retirement plan options. We also focus on creating and sustaining a healthy mix of work, personal and academic pursuit - all in an effort to support your work-life effectiveness. We support your growth and development through our career coaching and training department and we qualify as a public service loan forgiveness organization.
