The University at Buffalo [School of Dental Medicine](#) is seeking a tenure-track/tenured faculty member with expertise in bioinformatics to be appointed at the level of **Assistant or Associate Professor**. Candidates must be highly motivated and accomplished, with a doctorate degree in bioinformatics or a related field and strong expertise in oral health research and/or cancer biology, as well as strong statistical, machine-learning, data science, and computational biology background. The ideal candidate would demonstrate a record of impactful publications and a history of, or strong potential for, peer-reviewed research funding. The candidate will be expected to build a program of independent and collaborative research that contributes to the institution's mission. The research program may be purely computational or may include a small wet-laboratory component, subject to availability of space and resources.

**Innovative investigators with strong experience including, but not limited to, the following areas are welcome to apply:**

- Single-cell and bulk transcriptomics analysis
- Image analysis
- Artificial intelligence
- Computational immunology or immuno-oncology
- Data mining of electronic health records
- "Multi-omic" studies (including metabolomics)
- Microbiomics

The position offers the opportunity for scientific and professional growth with an exciting group of scientists that build on core strengths areas of oral health research including oral microbiology/immunology, mineralized tissues, salivary gland biology, and oral cancer/cancer complications. A portion of the Faculty's time is expected to be devoted to develop collaborations and provide analytical services to other investigators at the School of Dental Medicine.

### **Outstanding Benefits Package**

Working at UB comes with benefits that exceed salary alone. There are personal rewards including comprehensive health and retirement plan options. We also focus on creating and sustaining a healthy mix of work, personal and academic pursuit - all in an effort to support your work-life effectiveness. We support your growth and development through our career coaching and training department and we qualify as a public service loan forgiveness organization.
