The Indiana University School of Public Health-Bloomington (SPH-B) invites applications for non-tenure-track (NTT) (open rank lecturer or open rank clinical professor) faculty **position** in the Department of Epidemiology and Biostatistics. The SPH-B seeks individuals who will contribute scientific excellence through teaching and service in epidemiological methods, public health practice, surveillance, and other areas of education and service that promote health and improved responses to epidemics. This 10-month appointment would ideally start August 1, 2025. Applications received by November 30, 2024, will receive full priority consideration, and applications will be accepted until the position is filled. A member of the prestigious Association of American Universities (AAU) since 1909, Indiana University prides itself in offering outstanding academics grounded in world class research and vibrant campus life. The School of Public Health-Bloomington is located on the flagship campus of Indiana University and is comprised of over 200 faculty across five departments. Continuing the momentum of hiring over 60 outstanding faculty over the last two years, the SPH-B is launching another wave of faculty recruitment. The Department of Epidemiology and Biostatistics offers an undergraduate degree in epidemiology, a Master of Public Health degree in epidemiology, a **Master's** degree in biostatistics, a Ph.D. in epidemiology and a Ph.D. in biostatistics. The department has approximately 100 students enrolled in its BSPH program in Epidemiology (which is one of only three CEPH-accredited BSPH programs in Epidemiology in the US), and approximately 100 other students enrolled across its residential and online graduate programs. A part of the flagship campus of Indiana University located in Bloomington, Indiana, the Department of Epidemiology and Biostatistics maintains strong connections to other departments in the School of Public Health and other schools across Indiana University.

**About Indiana University Bloomington:** Founded in 1820, Indiana University Bloomington is the flagship campus of Indiana University. Located in Bloomington, IN., constantly strives to embody its mission to create, disseminate, preserve, and apply knowledge. It does so through its commitments to cutting-edge research, scholarship, arts, and creative activity; inspired and challenging undergraduate, graduate, professional, and lifelong educational programs; meaningful experiences outside the classroom; expansive global educational opportunities while fostering a culturally diverse campus environment; first-rate library and museum collections; and far-reaching economic development and impact in the state and region. Indiana University Bloomington is accredited by the Higher Learning Commission and is a member of the North Central Association. With over 47,000 undergraduate and graduate students, the campus has 16 degree-granting colleges and schools offering 200+ undergraduate majors, 100+ Master's degrees, and 150+ doctoral and professional degree opportunities. Known for its Indiana limestone facades and green spaces throughout, is widely considered one of the country's most beautiful college campuses. The School of Public Health-Bloomington (SPH-B) is located in the heart of the campus and comprises five collaborative academic departments with over 300 faculty and staff, including one of the most diverse faculties of any school of

public health in the nation, with 37.1% of current tenure-track/tenured faculty being scholars from traditionally underrepresented minority groups. In 2022 and 2023, Indiana University Bloomington was honored with the Higher Education Excellence in Diversity award. Indiana University provides IU SPH-B faculty outstanding teaching and research support through programs like the IU Faculty Academy on Excellence in Teaching (F.A.C.E.T.); extensive research development and research administrative support through the Office of the Vice President for Research; and innovative collaborations with organizations like the Indiana Clinical and Translational Sciences Institute, the IU School of Medicine (IUSM) and Regenstrief Institute's Center for Aging Research, and the IUSM's Center for Diabetes and Metabolic Diseases, and the IU Bloomington's Environmental Resilience Institute. In addition to outstanding programs like these, exciting things are happening in medical sciences at with the opening of the IU Regional Academic Health Center in Bloomington and significant synergy in cross departmental collaborations in areas like environmental impacts on human health, nutrition, and aging. The school has strong connections to Indiana University School of Medicine, Dentistry, and Nursing, Informatics and Computing, Art & Design, Public and Environmental Affairs, and the soon to be Indiana University Indianapolis Fairbanks School of Public Health, along with Purdue University programs in Pharmacy and Engineering. IU SPH-B continues its rapid expansion embracing a comprehensive and holistic approach to promoting health and wellbeing within the research, teaching and service aspects of our mission. With an emphasis on high quality and impactful research and an embracement of the importance of diversity and inclusion across all our academic endeavors - there has never been a more exciting time to join our growing faculty. Nestled in the rolling hills of south-central Indiana, and home to 85,000 residents, the city of Bloomington offers the feel of a college town with many of the amenities of a large city. From off-Broadway plays and musicals, the LOTUS World Festival of Music, quick access to 250,000 acres of public recreation lands, outstanding public schools and a reasonable cost of living, Bloomington offers much to all. ### Basic Qualifications

**Qualifications:** Candidates must hold a doctoral degree in epidemiology, biostatistics, or a closely related field from an accredited educational institution. A firm commitment to the role of diversity in all aspects of research, education and service is essential. Candidates must have teaching experience, preferably at both the undergraduate and graduate levels. Good interpersonal skills, effective communication skills, and the ability to work cooperatively and congenially within a diverse faculty are required. Leadership skills and vision for enhancing the academic components of an interdisciplinary department are essential.

### Additional Qualifications

Open-Rank Non-Tenure Track (Lecturer or Clinical  
Professor) Faculty Position  
Indiana University Bloomington

Posted Nov. 14, 2024, set to expire Mar. 11, 2025

**Responsibilities:** Non-Tenure track (open rank lecturer or open rank clinical professor) faculty members in the **Epidemiology and Biostatistics** are expected to substantially contribute to the overall academic excellence of the department by teaching and (for clinical faculty members) contributing to service internally to the department, school, university, and externally to the profession and/or the community. Evidence of a research portfolio in the applicant's areas of teaching and service, as well as experience mentoring students at the undergraduate and/or graduate level, is also preferable but not required. Areas of special interest for teaching and service include, but are not limited to clinical trials, observational studies, and other public health research methods for applications in infectious disease, nutrition, obesity, and other health outcomes. These positions are located on the campus of Indiana University Bloomington in Bloomington, Indiana, and successful candidates are expected to work on the campus to allow full engagement with the department, school, campus, and community. Indiana University bases its NTT promotion recommendations upon performance in excellent teaching (both ranks) and service (clinical rank).

### Special Instructions

**Application Procedure:** Please provide a (1) curriculum vitae, and (2) a cover letter no longer than 5 pages in length summarizing your qualifications and interest in the position, which includes a statement of teaching interest and experience. [\[KNR1\]](#) [\[AD2\]](#) If selected as a finalist, we will additionally request a list of up to six (6) references (a minimum of three references for the Assistant Professor rank and a minimum of six for Associate or Full Professor) [\[KNR3\]](#) [\[MR4\]](#) ; references will be contacted if you are selected for a finalist interview and/or job offer. Interested candidates should submit applications at: <https://indiana.peopleadmin.com/postings/21020>.
