The candidate will be based in the school most appropriate for their background and will work closely with ODU Global and the program faculty to develop and grow this program. The Ellmer College of Health Sciences has well equipped [research facilities](#) as well as [centers and clinics](#) that serve the community. There are many opportunities for collaboration within the college and university, and with hospitals and military bases locally in the Hampton Roads region.

In addition to directing the DASK, the individual will teach and supervise students in the program and produce scholarships in a content area that matches their scholarly interests. Some service to the university and profession is also expected. This is a full time, twelve-month position at the rank of Clinical Associate Professor (non-tenure track). We are committed to maintaining a diverse and stable faculty. The appointment is effective **July 25, 2025**.

### **Position Type**

FullTime

### **Type of Recruitment**

General Public

### **Minimum required education and/or special licenses, registrations, trainings, or certifications**

Earned doctorate in Kinesiology, Exercise Science, or similar content area

### **Minimum required level and type of experience, knowledge, skills, and abilities**

1. Demonstrated successful outcomes in teaching kinesiology related courses.
2. Demonstrated successful outcomes in developing and teaching online courses.
3. Evidence of scholarship at the clinical associate professor level encompassing Boyer's model domains.
4. Experience in leading educational programs or initiatives.

### **Preferred Qualifications**

- Demonstrated successful outcomes in teaching graduate students.
- Record of successful mentorship of graduate student thesis or capstone projects
- Active participation in professional organizations within the field of kinesiology
