Posting Detail Information

Position Summary

The department of [Epidemiology and Environmental Health](#) is a dynamic workplace with a strong commitment to improving population health for over 100 years. We are seeking candidates for **three Assistant or Associate Professor HS (tenure eligible)** positions in the Graduate Public Health Program with a focus on cancer, womens health, health disparities, and/or advanced epidemiologic methods.

Successful candidates will join a University-wide multidisciplinary team of public health faculty and be part of the Department of Epidemiology and Environmental Health (EEH). These are calendar year (12-month), tenure eligible positions, fully funded by New York State. Faculty members will:

- Be expected to be research productive: bringing grant funding, applying for and winning grants and producing peer-reviewed publications.
- Be expected to teach 1 course (3-4 credit hours) per semester.
- Be expected to make contributions to the scholarship and service missions of the School of Public Health and Health Professions (SPHHP).

We are particularly looking for candidates who can operate effectively in a diverse community of students and faculty and share our vision of helping all constituents reach their full potential. We are committed to developing an excellent and diverse community of scholars and students engaged in education, research, and service. We encourage applications from women, members of minority groups, veterans, and individuals with disabilities.

Learn more about:

- [Department of Epidemiology and Environmental Health \(EEH\)](#)
- [School of Public Health and Health Professions \(SPHHP\)](#)
- [University at Buffalo \(UB\)](#)
- Being a part of the [University at Buffalo community](#).
