Posting Detail Information

Position Summary

The University at Buffalo, [Department of Exercise and Nutrition Sciences](#) is now accepting applications for a full-time position of Clinical Assistant Professor of Nutrition Sciences. We encourage applications from candidates who are historically underrepresented in academia. This is a 10-month, non-tenure track position and will begin in August 2024.

Major responsibilities of this position are:

- Primarily teach in the undergraduate program in nutrition but may have opportunities to teach in other programs.
- Provide academic and career guidance/mentoring to students and teaching assistants.
- Curriculum development and systematic program review.
- Participate in service activities that contribute to the advancement of the department (e.g., Department, School, University, and Professional organizations)
- Demonstrate collegiality in all aspects of faculty engagement.
- Be expected to teach up to 12 credit hours per Fall and Spring semesters.

ENS is committed to developing an excellent and diverse community of scholars and students engaged in research, education and service. Applications from individuals who will contribute to that diversity, including underrepresented groups are encouraged.

Good communication and interpersonal skills are essential. The successful candidate will bring a vision for adaptation and continuous quality improvement in teaching effectiveness and potential to assist in the design and development of new courses and/or course revisions.

Outstanding Benefits Package

Working at UB comes with benefits that exceed salary alone. There are personal rewards including comprehensive health and retirement plan options. We also focus on creating and sustaining a healthy mix of work, personal and academic pursuit - all in an effort to support your work-life effectiveness. We support your growth and development through our career coaching and training department and we qualify as a public service loan forgiveness organization. Learn more about our benefit packages.

About the Department

The Department of Exercise & Nutrition Sciences is one of the academic units in the School of Public Health & Health Professions. There are well-established research programs and excellent facilities

available within the Department and School. The Department offers a BS in Exercise Science, a BS/MS in Exercise Nutrition, BS in Nutrition, an integrated Clinical Nutrition graduate dietitian training program, an MS degree in Athletic Training, MS degrees in Nutrition and Exercise Science, a combined Exercise Science BS/MPH in Epidemiology and PhD degrees in Exercise Science and Nutrition. The Department is home to the Center for Research and Education in Special Environments (CRESE), which is a state-of-the-art facility for performing research at altitude, depth, and extremes of temperature.

About the School of Public Health and Health Professions

SPHHP offers programs at every degree level and is the home to departments of biostatistics, community health and health behavior, epidemiology and environmental health, exercise and nutrition sciences, and rehabilitation science. It is one of only a few schools across the country that includes both health-related professions and public health. It has a diverse student body which it is actively engaged in supporting. The School has an energetic equity, diversity and inclusion council and provides professional development opportunities in inclusive pedagogy and other equity-related issues. Faculty in the School also engage with the University at Buffalo Community Health Equity Research Institute.

About The University at Buffalo

The University at Buffalo (UB) #ubuffalo is one of Americas leading public research universities and a flagship of the State University of New York system, recognized for our excellence and our impact. UB is a premier, research-intensive public university dedicated to academic excellence. Our research, creative activity and people positively impact the world.
