The College of Health Sciences, Department of Athletic Training and Clinical Nutrition is seeking a motivated individual who can contribute to an ongoing research agenda associated with funded clinical trials investigating the consequences of musculoskeletal injuries. This effort includes a strong research agenda that incorporates a multidisciplinary approach dedicated to injury prevention, musculoskeletal rehabilitation, and the connections between sensorimotor and neurocognitive deficiencies. The primary obligations of this position are to Department of Defense funded clinical research including study coordination, data collection, development of new projects, and student mentorship in the Sports Medicine Research Institute.

The person in this position must have a Ph.D. in sports medicine, rehabilitation, or a closely related field. Additionally, this person should have experience with research coordination, familiarity with Department of Defense funded research, and expertise in data capture associated with inertial measurement unit-based motion capture systems, instrumented reaction time systems, and MRI techniques specific to cortical function associated with musculoskeletal disorders. This person will be expected to assist in fulfilling the research objectives of the Department of Athletic Training and Clinical Nutrition, to collaborate with other departmental and college faculty, and to provide mentorship to other research personnel including students, graduate student researchers, postdocs, and staff of the Sports Medicine Research Institute. This position will be a 12-month appointment with option to renew contingent upon review and available grant funding. The anticipated effort for this position is 95% Research/Scholarship and 5% Service.

Candidates should apply online with a curriculum vita and cover letter on the UK Jobs employment website. Questions should be directed to the search committee chair, **Matt Hoch, Ph.D.**, College of Health Sciences, Sports Medicine Research Institute, 720 Sports Center Drive, Lexington, KY 40536-0200, at phone (859) 323-9850 or email, [matt.hoch@uky.edu](mailto:matt.hoch@uky.edu). Review of applications will begin immediately and continue until the position is filled. Visit the University's website and see for yourself what makes UK the perfect place to work, which includes a comprehensive benefits package ([www.uky.edu/HR/benefits](http://www.uky.edu/HR/benefits)).

Applicants must value the University of Kentucky's mission and demonstrate a commitment to excellence, holistic education, and service to the broader community. The University and the College are dedicated to fostering a positive and collaborative work environment where students, faculty, and staff are supported in their professional and academic growth. Through training, resources, and mentorship, we aim to create a workplace that promotes mutual respect and professional development for all.

Additional information describing the Sports Medicine Research Institute is located at <https://chs.uky.edu/sports-medicine-research-institute>. Questions can be directed to Dr. Matt Hoch
