**Job Description**

Are you enthusiastic about AI methods and data science? Do you believe AI will change future health care?

Then consider joining us!

The Faculty of Medicine, Aalborg University, is launching a strategic initiative on AI method research within health data science. The aim is to create a cross-disciplinary initiative to strengthen cohesion across medicine, engineering and natural science disciplines and departmental boundaries at the faculty.

To kick-off the initiative, three tenure track assistant professors are recruited within these specific areas:

- Advancing AI-driven statistical genomics to unravel disease heterogeneity and improve precision medicine
- Advancing multimodal AI for clinical practice to predict lifetime risk and treatment outcomes in cancer and complex diseases
