Job Description

Position purpose

A Level D academic is expected to make a significant contribution to all activities of the organisational unit or interdisciplinary area and play a significant role within their profession or discipline. Academics at this level may be appointed in recognition of distinction in their disciplinary area.

The incumbent is expected to contribute significantly to the teaching, learning, and research activities in the area of Epidemiology. This includes delivering high-quality teaching at both undergraduate and postgraduate levels, supervising research students, developing innovative curricula, and conducting impactful research that advances knowledge and practice in public health and epidemiology.
