Job
Description

ABOUT VINUNIVERSITY

VinUniversity (VinUni) is the first private, not-for-profit Vietnamese university established based on international standards. The university integrates the models of excellent international universities with the unique cultural and economic characteristics of Vietnam, to make a breakthrough in Vietnamese higher education and to become a world-class university.

The University has built strategic collaborations with Cornell University and the University of Pennsylvania — a choice that speaks to our commitment to excellence, innovation in research and teaching, and to making a difference in the world. VinUni comprises College of Arts and Sciences; College of Business and Management; College of Engineering and Computer Science; and College of Health Sciences.

VinUni's founding benefactor - Vingroup is one of the biggest private conglomerates in Asia with the largest market capitalization value in Vietnam. As a multisector corporation, Vingroup focuses on five main areas: Industrials & Technology; Real Estate & Services; Infrastructure; Green Energy; and Social Enterprises.

In September 2024, VinUni became the youngest and fastest university in the world to achieve QS 5 stars, earning 5 stars in 9 categories: global engagement, good governance, program strength, academic development, teaching, employability, facilities, arts, and social impact. In October 2024, VinUni was appointed by UNESCO as the first and only UNESCO University Chair, focusing on Environmental Leadership, Cultural Heritage, and Biodiversity.

On our journey to become one of the world's top 100 universities, VinUni is building a dynamic ecosystem of innovation and discovery. Through strategic investments in world-class research centers, state-of-the-art facilities, and transformative technologies, the university empowers collaboration

across disciplines, strengthens partnerships with industry and society, and nurtures a thriving global network, who spearheads advancements in AI/Machine Learning, Data Science, Environmental Intelligence, Innovation in Health Sciences, Policy Development and Sustainable Societies.

THE COLLEGE

The College of Health Sciences (CHS) is committed to developing world-class research and providing outstanding healthcare education. We aim to be an agent of change in medical education reform and health sciences research. We strive to attract and develop healthcare leaders who will advance health sciences locally and globally.

CHS's strategic partner within Vingroup is the Vinmec Healthcare System—the leading private, not-for-profit provider in Vietnam, comprising 10 hospitals and outpatient clinics (1,600+ beds). Vinmec is the only provider in Vietnam with two JCI-accredited hospitals (Hanoi and Ho Chi Minh City). Vinmec Times City in Hanoi is our primary teaching hospital and the only academic JCI-recognized hospital in the country, offering students robust clinical exposure and a strong care–education–research environment.

CHS currently offers undergraduate programs in Medicine and Nursing, and six residency programs in Internal Medicine, General Surgery, Pediatrics, Radiology, Orthopedics, and Anesthesia. All programs at CHS are competency-based and were developed with international standards and benchmarking. Our strategic academic alliance partner is the University of Pennsylvania. With international standard curricula, a blend of international and Vietnamese faculty, modern pedagogical approaches, and technology-forward infrastructure, we ensure cutting edge education and research opportunities across programs in a supportive and collaborative culture. Our graduates are prepared to become leaders, innovators, and scientists with an entrepreneurial mindset.

VinUni CHS received official recognition from ACGME International, a renowned international accrediting organization, for the high quality of its postgraduate medical education programs at institutional level. This marked CHS as the first medical education institution in Vietnam and only the second in Southeast Asia, following Singapore, to attain such recognition. In March 2024, ACGME-I accredited 3 residency programs at CHS (Internal Medicine, General Surgery and Pediatrics), which recognized VinUni again, for the first time in Vietnam with 3 “program level” accreditation. CHS is also the first and only institution in Vietnam with ACEN Candidacy recognition for Nursing education program.

In research and innovation, CHS is a pioneer in 3D technology in medicine in Vietnam and have strong focus areas in precision medicine, living therapies, population health and systems science, and health

technology.

THE POSITION

POSITION REQUIREMENTS

Full-time faculty members in the MD Program will be responsible for teaching, research, clinical supervision, and service. Faculty members will contribute to the academic development and accreditation of the medical program and play an active role in shaping the future of medical education in Vietnam.

Teaching and Learning:

- Facilitate interactive lectures, small-group discussions, case-based learning, and integrate clinical relevance into foundational sciences.
- Design and conduct simulation sessions, debrief learners effectively, and ensure alignment with learning outcomes and assessment standards.
- Guide students during ward rounds, outpatient clinics, and bedside teaching, emphasizing patient-centered care, professionalism, and clinical reasoning.
- Develop, implement, and grade assessments across all phases (written, simulation, workplace-based), providing constructive feedback for learner growth.
- Act as a professional role model, support student well-being and career development, and foster reflective practice throughout the curriculum.

Clinical and Academic Integration:

- Connect basic sciences concepts to clinical practice to support integrated medical education.
- Collaborate with other faculty to ensure clinical teaching content is well-aligned within the MD curriculum.
- Maintain professionalism and ethical standards in all teaching activities.

Research and Scholarship:

- Conduct research in biomedical sciences/medical education/clinical.
- Publish in peer-reviewed journals and present findings at academic conferences.
- Seek opportunities for research collaboration and funding to support scholarly work.

Service and Leadership:

- Participate in departmental and program committees, contributing to academic planning and decision-making.
- Support curriculum development, evaluation, and accreditation activities.
- Promote medical/clinical education and contribute to community engagement initiatives in health sciences.

KEY SELECTION CRITERIA

Join us if you have:

- Education: A Master's degree (minimum) or a Doctorate (preferred) in Clinical Medicine/Medical Education or a closely related field from a recognized institution. Completion of residency training or equivalent.
- Professional License: A valid medical practice license/certificate.
- Teaching Experience: Prior experience teaching in a higher education or clinical training setting.
- English Proficiency: Excellent written and spoken English (VinUniversity is an English-medium instruction institution).
- Additional Skills: Strong commitment to innovation in teaching, collaboration, continuous improvement, and student success.

Preferred Qualifications

- Experience in curriculum development and program accreditation.
- Familiarity with international standards such as WFME or similar.
- Evidence of research publications or funded research projects.
- International teaching or clinical experience is a plus.

COMPENSATIONS

The salary benefits are internationally competitive and commensurate with qualifications and experience.

We thank all applicants for their interest. **Please note that only those candidates selected for interviews will be contacted.**
