Job Description	

The University of Texas Health Science Center at Houston (UTHealth) School of Public Health seeks to hire an experienced Epidemiologist at the assistant, associate or full rank in a tenure-track position. UTHealth School of Public Health includes six campuses (Austin, Brownsville, Dallas, El Paso, Houston and San Antonio) strategically located across Texas. This full-time, 12-month position is in the Department of Epidemiology, Human Genetics and Environmental Sciences at the San Antonio campus.

Qualifications include: (1) a doctoral degree in epidemiology or closely related field; (2) current teaching and research emphasis in social epidemiology; and (3) a track-record demonstrating the ability to partner with community organizations and other institutions. In addition, applicants must have a record of external research support and peer reviewed publications commensurate with academic rank as well as current funding with a social epidemiology emphasis, including a focus on assessing and improving population health through data.

Ideal candidates should have expertise in social epidemiology that aligns with faculty at the San Antonio campus, the Joe R. & Teresa Lozano School of Medicine and other Universities as well as Health Systems in San Antonio. Areas of research interest include, Latino and youth health, health disparities, cancer and tobacco control, and population health. Primary responsibilities will include developing collaborations within the community and across institutions, campuses and departments (e.g. with Health Promotion and Behavioral Sciences), acquiring and conducting externally funded research and leading graduate-level courses.

UTHealth is the most comprehensive academic health system in The University of Texas System and the U.S. Gulf Coast region. In addition to the School of Public Health, UTHealth is home to schools of biomedical informatics, biomedical sciences, dentistry, medicine and nursing. It also includes a psychiatric hospital, multiple institutes and centers, a growing network of clinics, and outreach programs in education and care throughout Texas. UTHealth School of Public Health (www.sph.uth.tmc.edu) is a dynamic, top-tier school that is transforming public health locally, nationally, and internationally. The School has 165 faculty members and 1,300 students and is accredited by the Council on Education for Public Health (CEPH) and the university is accredited by the Southern Association of Colleges and Schools (SACS). The School of Public Health San Antonio campus has a long history of working with The University of Texas Health Science Center at San Antonio, The University of Texas at San Antonio, the San Antonio Metropolitan Health District and Brooke Army Medical Center, which is one of the Army's largest medical care facilities. Collaborations with these institutions include research, workforce development, education and addressing health disparities in San Antonio communities.

Review of applications will begin immediately. Competitive salary and startup funds are available. Academic rank, salary, and tenure will be based on the qualifications and experience of the selected candidate. Interested individuals should complete the Web application at: <http://go.uth.edu/SocialEpiProf-SA>. Applicants should attach a letter describing their qualifications and research interests, a curriculum vitae and contact information for three professional references to the Web application. Questions should be directed to: Laura Mitchell, Ph.D., Faculty Search Committee Chair, Laura.E.Mitchell@uth.tmc.edu.
