Job Description	

We have an opening for a postdoc position, working with Professor Jing Li (https://sites.gatech.edu/jing-li/) from the H. Milton Stewart School of Industrial and Systems Engineering at Georgia Tech. The candidate must be a permanent resident or a U.S. citizen.

The research revolves around the development of machine learning algorithms for data analysis, pattern recognition, and predictive analytics using spectroscopy and other datasets. Prior experience with spectroscopy data is not required.

The position has a competitive salary and can provide an excellent pathway to employment. Interested candidates can send an email to jing.li@isye.gatech.edu with a CV.
