a quality learning environment to enhance teaching and learning activities in the LRC; evaluate new technological advances in nursing education; and participate in faculty development activities that are consistent with the mission of the college and program outcomes.

Required:

- Master's degree or above in Nursing and 2 years of experience practicing as a Registered Nurse.
- Operational experience such as using and/or programming multiple medium and high-fidelity simulation computerized mannequins and audio-visual equipment for simulation.
- Strong leadership skills including effective communication, organization, and strategic planning.
- Ability to understand and utilize advanced technical Sim Lab equipment and communicate that knowledge to others as appropriate.
- Advanced analytical, problem solving skills, and computer/technological skills.
- Excellent written and verbal communication skills to represent simulation resources internally and to external constituencies.
- Current, valid licensure as a Registered Nurse in Ohio or eligible for Ohio RN License.

Preferred:

- Two years of teaching experience in an undergraduate and/or graduate program.
- Master's or doctoral degree in Nursing.
